

Oxford Laparoscopic Fundoplication Course

Friday March 13th 2015

9am-3pm

Laparoscopic Skills Lab
and Seminar Room
Department of Paediatric
Surgery
Level 2
Oxford Children's Hospital

This is a 1 Day Laparoscopic Fundoplication skills course including theory and practical skills training on animal models. The course is suitable for surgical registrars and new consultants.

£80 per Candidate (Fully subsidised for OUH employees and Oxford Deanery trainees)

Maximum of 10 Candidates

Please contact surgical.simulation@ouh.nhs.uk or **01865 234330** to book a place or for further information.

Aims of course

This course is aimed at middle grade SpRs in upper G.I. and paediatric surgery. The aims are to provide core knowledge on anatomy, and hands-on experience in the lab of the operative procedures. This is primarily a practical course and there will be an opportunity for all trainees to perform surgery on the laparoscopic trainers.

Programme

- Introduction
- Questionnaire
- Operative procedures
 - Adults
 - Children
- Key surgical anatomy
- Port placement/ergonomics
- Key surgical steps
- Practical session
