

Common Elective and Acute Problems in the General Surgery of Childhood

Date: 3-4 December 2015

Course fee: £530

RCS England Members/Fellows fee: £477

Level: CT1-2, ST3-8, consultants and SAS Grades

Location: RCS London

Mapped to the General Surgery of Childhood section of the ISCP syllabus, this course is aimed at trainees intending to develop a subspecialty interest in paediatric surgery, as well as consultant general surgeons with a paediatric practice.

Course content includes:

- Common operations
- Setting up and developing a paediatric practice as a general surgeon
- Child protection
- Medicolegal issues and consent
- Abdominal Pain in Childhood

Delegate Feedback

‘I enjoyed the course and feel I have gained more in the way of managing acute and elective paediatric surgical conditions as a core trainee but also given enough to inform me towards preparing for future practice as a paediatric surgery trainee.’ - December 2014

Course Director

Mr Girish Jawaheer
Locum Consultant Paediatric Surgeon
Great North Children's Hospital, Newcastle
