Azad Bhushan Mathur is a Senior Consultant Paediatric Surgeon and Urologist at the Norfolk and Norwich University Hospital. He joined the unit in 1994 as the sole paediatric surgeon and built up the unit to its current status of Tertiary Paediatric Neonatal/Surgical and Urology centre comprising of 6 Consultant Paediatric surgeons with various sub-speciality interests. He was the first governance lead for Paediatric & Neonatal Surgery and excelled in this role, setting standards for the future. He also promoted collaborative work with other internationally reputed centres, bringing new ideas to the unit and contributing to the development of other centres. Mr Mathur has a specialist interest in Paediatric Urology and has contributed to significant developments in this field. He is recognised nationally and internationally for his excellent results in the management of hypospadias and other areas of complex urological conditions. His expertise on hypospadias is well recognised by his peers, including adult urologists, who often invite him to operate jointly while dealing with an adult with hypospadias. His passion for developing an adolescent unit at NNUH is taking some shape, and we hope that this could be achieved during his time at NNUH.

Anindya Niyogi is a Consultant Paediatric Surgeon at King's College Hospital London. Apart from having a strong clinical background, he is involved extensively in many academic activities after receiving the Master of Health Professions Education degree. This includes his role as a GMC PLAB examiner, Station Management Member responsible for designing OSCE stations, teaching on MRCS and FRCS courses, faculty for basic and advanced laparoscopic skills courses from the Royal College of Surgeons and a project member of the PG cert in Surgical e-learning. He also co-founded and teaches on the SPRINT education programme for Paediatric Surgery.

Vivekanandan Kumar MBBS, MS (Gen Surg), FRCSEd, MD (Res), FEBU, FRCS (Urol) is a Consultant Urological Surgeon with a special interest in prostate, bladder and penile cancer for 13 years at Norfolk and Norwich University Hospital. He is also the examiner for FRCS Urology and the MRCS exams from the Royal College of Surgeons of Edinburgh. He is the principal investigator for the International multicentre randomised control trials; InPACT, BLADDERPATH, VELRAD. He is a member of the Trial Management Group and Executive committee, INPACT trial. Vivek is the Chairman of the Penile cancer supra-network in the East of England and the panel member of the urological cancers, National Cancer Peer Review, UK. His practice involves a high volume (>500 cases) of laparoscopic and robotic pelvic cancer surgeries. Since starting in Norwich in 2009, 100% of the prostatectomies have been minimally invasive at the centre. He is credited with 59 publications, five book chapters and 65 International, national presentations so far.

Ashok Daya Ram MBBS, FRCS, FRCPS, FRCS (Paediatric Surgery), FEBPS, is a Consultant Paediatric and Neonatal Surgeon at the Norfolk and Norwich University Hospital. After graduating from the Institute of Medicine 1 in Rangoon, Burma, he completed his postgraduate training in the UK, developing a keen subspeciality interest in Neonatal surgery, Thoracic and Upper Gastrointestinal Surgery. Apart from his passion for the surgical care of babies and children, he is also a staunch educationist and holds the positions of Honorary Lecturer at the University of East Anglia, Regional Training Programme Director, Director of Advanced Paediatric Life Support courses, faculty for European Paediatric Life Support Courses and Surgical skills courses from the Royal College of Surgeons and an executive member of the Education Committee of the European Society of Paediatric Endoscopic Surgeons. In addition, he founded, directs, and teaches on the Sprint Education Programme for Paediatric Surgery, which holds seminars and postgraduate exam preparation sessions attended by paediatric surgeons worldwide. He has presented at numerous international meetings and conferences and has received the Gold Medal from the European Board of Paediatric Surgery. Among the variety of techniques, articles, and eight textbook chapters he has authored is the chapter on Posterior Urethral Valves in the Oxford Textbook of Urological Surgery.

Vvs Chandrasekharam MCh, FIAPS, FSPU, is the Chief Paediatric Surgeon and Urologist at the Ankura Hospital for Women and Children in Hyderabad. He is an expert in Paediatric Laparoscopic Urology and has described many new techniques that he demonstrates live in many workshops during his various invitations to national and international meetings. He received the gold medal in his MBBS and the M.Ch Paediatric Surgery from the AIIMS, New Delhi. He has authored a textbook, "Hypospadias surgery: science and art", and co-authored the book "Paediatric Urology update ". He has published 54 peer-reviewed scientific papers with over 400 citations. He has

performed over 750 laparoscopic pyeloplasties and has been training the juniors doctors in this fine art. He is the executive member of many national forums in paediatric urology and has acted as the Chairman of the Society of Paediatric Urology. He has received the Times of India Excellence award, Vaidya Ratna award and the Abdul Kalam Award.

Serdar Tekgul is Professor of Urology at Hacettepe University in Ankara, Turkey. He underwent Paediatric Urology fellowship training at the University of Washington, Children's Hospital. Since 2003, he is the Head of the Department and has been chairing the section of Paediatric Urology at Hacettepe. His academic interests in different areas of paediatric urology are obstructive uropathy, voiding dysfunction, reflux, reconstructive surgery of the bladder and childhood urolithiasis. He has chaired the Turkish Board of Urology Exam Committee and has been the president of the Turkish Paediatric Urology Association. In addition, he acted as the President of the Society of Urological Surgery in Turkey. He has more than 100 publications in peer view journals (his H index is 22 (WOS) and has more than 3500 citations). He has made many presentations, has been invited as a speaker in numerous international meetings for Paediatric Urology and has been visiting professor in several paediatric urology centres around the world. He is a member of both Paediatric Urology Societies in Europe and the US. He is a member of the Society of Paediatric Urological Surgeons (SPUS). He is a member of the American Association of Genito-Urinary Surgeons (AAGUS). He is on the editorial board of several international journals for Urology and Pediatric Urology. He has been a member of the Children's Committee for the International Consultation for Incontinence (ICI). He has been a member of the EAU guidelines committee and chairing the Pediatric Urology group since 2008. He is a faculty member of the European School of Urology and has been a lecturer in several ESU courses and annual EUREP courses. He is currently a member of the European Board of Urology (EBU) executive committee and Chairman of the EBU examination committee.

Prem Puri MBBS, LRCP, LRCS(Ed), DCH, MS, FRCS, FRCS(Ed), FACS, FC Paed Surg(SA)(Hon), FAAP(Hon), DSc(Hon), is the Newman Clinical Research Professor at the University College Dublin School of Medicine and Medical Science and Consultant Paediatric Surgeon and Director of Surgical Research at the Beacon Hospital. He is currently the Secretary of the International Board of Paediatric Surgical Research. He is the Past President of the World Federation of Associations of Pediatric Surgeons (WOFAPS), the European Paediatric Surgeons Association (EUPSA) and the World Federation of Associations of Paediatric Surgeons (WOFAPS) Foundation. He is Editor-in-Chief of Paediatric Surgery International and on the Editorial Board of several other journals. He was a Member of the Health Research Board of Ireland (2010- 2015). He has been awarded many Honorary Fellowships, including the American Surgical Association (ASA), American Academy of Paediatrics, American Paediatric Surgical Association, Canadian Association of Paediatric Surgeons, Japanese Society of Paediatric Surgeons, and also Argentinean, Austrian, Canadian, Czech, Croatian, Cuban, Indian, South African and Ukrainian paediatric surgical associations. Professor Puri is known internationally for his research into underlying mechanisms causing congenital disabilities and innovative treatments, which have benefited children worldwide. He is a multi-award-winning researcher whose previous awards include the People of the Year Award (Highest Irish National Award), the prestigious Denis Browne Gold Medal by the British Association of Paediatric Surgeons and the Rehbein Medal by the European Paediatric Surgeons Association for outstanding contribution to paediatric surgery. He has been a visiting professor to many leading universities worldwide and invited speaker at over 250 international scientific meetings. He has published ten books, 147 chapters in textbooks and over 700 articles in peer-reviewed journals. He is the Editor of Newborn Surgery, which is regarded as the authoritative book in the field, the 4th edition is now published, and also of the widely acclaimed Paediatric Surgery (Atlas Series), which is in its 2nd edition. His research has been cited over 20,000 times in peer-reviewed articles.

Pankaj Mishra MS, MCh, MRCS, FRCS Paediatric Surgery is a Consultant Paediatric and Fetal Urologist at the Evelina London Children Hospital, Guy's and St Thomas' Hospital, Kings College Hospital and Harris Birthright Centre, London. He is an Honorary Senior Lecturer at Kings' College, London and a visiting lecturer and clinical tutor at the University of Edinburgh. Pankaj is a keen minimal access surgeon and enjoys teaching and training the next generation of surgeons. He has conceptualised, established and is the director of popular national Paediatric surgery and Paediatric urology courses and is a faculty for various national and international paediatric urology simulation training programmes.

Kristina Becker MD is a Consultant Paediatric Surgeon and Urologist at the Dr von Hauner Children's Hospital of the Ludwig Maximilians University of Munich, Germany. She has been board certified in Paediatric surgery since January 2015. Paediatric urology was already the central part of her paediatric surgery residency. Since 2015 she has focused her training mainly on Paediatric urology. She is responsible for ambulatory and operative care and functional diagnostics of patients with Paediatric urologic conditions. She is fully engaged in the education and training programs for medical students and postgraduate trainees in paediatric urology. She is also leading a trainee program in Ethiopia, Southeast Africa, for paediatric surgery and urology highly financed by the German Academic Exchange Service (DAAD). Since 2018, she has been assigned associate head of the division of Paediatric urology in the department of Paediatric Surgery of the Dr. von Hauner Children's Hospital. Soon she will take part in the examination of the European Board of Paediatric Urology (ESPU/FEAPU).

Milind Kulkarni is a Consultant Paediatric Surgeon, Urologist and Associate Medical Director at Norfolk and Norwich University Hospital. He is also Clinical Subdean and Honorary Senior Lecturer at Norwich Medical School, University of East Anglia. In addition, he is the Clinical Lead for Surgery in Children at the East of England ODN. He has recently been appointed as Chair of the Specialist Advisory Committee for the Joint Committee for Surgical Training in Paediatric Surgery. His professional affiliations include the European Society of Paediatric Urologists, British Association of Paediatric Urologists, International Pediatric Endosurgery Group, British Association of Paediatric Endoscopic Surgeons, British Association of Paediatric Surgeons.

Naved Alizai is a Consultant and Honorary Professor of Paediatric Surgery and a Barrister. He is the Lead Clinician for the department in Leeds, UK. His special interest is in Robotic & Hepatobiliary Surgery. He is a proctor for Robotic Surgery for Europe. He studied Law at Exeter University and completed the Bar at Law at Bristol University. He has a busy medico-legal practise and regularly provides reports for the General Medical Council, NHS resolution and legal firms.

Marty Koyle is Professor Emeritus of Surgery at the University of Toronto, where he held the Women's Auxiliary Endowed Chair in Pediatric Urology and Regenerative Medicine while serving as division head of Pediatric Urology at the Hospital for Sick Children. He also currently holds academic positions at the Institute of Health Policy, Management and Evaluation at the Dalla Lana School of Public Health at the University of Toronto, at the Desautels Faculty of Management at McGill University in Montreal, and the University of Minnesota School of Medicine in Minneapolis. Aside from medical education, his academic interests include quality improvement and patient safety, second victim and moral distress in healthcare workers, learning health system, and enhanced recovery after surgery (ERAS). He has contributed over 300 manuscripts to the peer-reviewed literature and has been a co-editor of 8 major textbooks. In 2011, he was honoured to be awarded FRCS based on merit for his contributions to Pediatric Surgery and Urology in the UK and 2019, and he received lifetime honorary membership in the British Association of Pediatric Urologists (BAPU).
