Jonathan started as a Consultant at University Hospitals Bristol in 2014 having completed specialist training in Oxford and fellowships in Newcastle and Bristol. He currently leads the cross city pelvic floor multidisciplinary team meetings, one of the first MDTs to achieve accreditation from The Pelvic Floor Society (TPFS). He is also the Education and Training lead for TPFS.

Kate McCracken is a pediatric and adolescent gynecologist in Nationwide Children's Hospital, Ohio and works closely with the colorectal and urology teams to manage girls with complex anorectal malformations.
